

Karate and Candy Sushi

Run sheet for both Thursday bands. Word review, counting, karate on the pads, candy sushi. Two adults throughout — assistant tasks are marked **A:** in the margin notes.

1st – 2nd grade

9:25 – 10:25 • full run sheet

Kindergarten

10:30 – 11:30 • trimmed, cut list below

RUNNING ORDER

Six blocks. Language, then body, then food.

Food last — it pays for the asking, and attention is gone after sugar. K column is the trim.

BLOCK	1ST-2ND	K	ACTION
Bow in	3 min	3 min	Line up, rei , greeting called and returned
Word review	8 min	7 min	Last week’s words, called and answered, standing
Counting 1–10	7 min	6 min	Three passes: seated, clapping, then punching the count
New words	7 min	5 min	Four -masu verbs + o kudasai
Karate	18 min	15 min	Kata demo, bow, stance, round kick, pads
Candy sushi	14 min	18 min	Ingredients cost a Japanese sentence
Bow out	3 min	3 min	sayōnara + dōmo

K cut list, in order: drop the video · stop counting at **go** (5) if it is falling apart · drop **hajime/yame** as taught words and just use them as commands · let origami run long.

A: watch the clock and call the 10-minute and 5-minute marks on the karate block. It is the block that overruns.

Review — last week’s words.

Standing. Call each word, class answers. Hold the object or make the shape.

WORD	SAY	MEANS	CUE
ohayō	oh-HA-yoh	good morning	Bow, say it, they bow and return it
dōmo	DOH-moh	thanks	Hand something over, wait for the word
inu	EE-noo	dog	Bark SPELLING FIX
neko	NEH-koh	cat	Meow
sayōnara	sa-YOH-na-ra	goodbye	Hold for the bow out
1ST-2ND ONLY			
namae	NA-ma-eh	name	Point at self, say name, point at them
ki	kee	tree	One leg, arms up
kawa	KA-wa	river	Both hands waving low and flat
yama	YA-ma	mountain	Arms in a peak overhead

Correct the card before class. Last week’s list has *inyu*. It is **inu** — EE-noo, two syllables, no “y”. Fix it on the board and anywhere it is written down. It matters today because the dog is the origami.

BLOCK 3 • 6-7 MIN

Counting 1–10.

This becomes the count for every kick and every rep for the rest of the unit. Same count used in the dojo.

1 ichi EE-chee	2 ni nee	3 san sahn	4 shi shee	5 go goh	6 roku ROH-koo	7 shichi SHEE-chee
-----------------------------	-----------------------	-------------------------	-------------------------	-----------------------	-----------------------------	---------------------------------

8

hachi

HA-chee

9

ku

koo

10

jū

joo

Three passes. 1 — seated, slow, call and repeat. 2 — standing, clap on each number. 3 — I count, they punch the air on each number.

K: stop at **go** if the back half is mush. Five clean numbers beat ten mumbled.

BLOCK 4 • 5-7 MIN

New words — four verbs and the asking phrase.

All four in the polite **-masu** form so they pattern together. Two double as drill commands and get learned by being obeyed.

The **-masu rule — teach this first, before the four words.** Written *ma-su*. Said **MASS**. The *u* is there and you do not say it.

Drill it on its own: I say **ma-su**, class says **MASS**. Three times. Then every verb today is that ending with something stuck on the front, and four words become one rule they already know.

Listen for it in the video — tell them to raise a hand when they hear **MASS**. Gives them a job during the screen time.

WORD	SAY	MEANS	USED FOR
kikimasu	kee-kee- MASS	listen	Attention word. Say once, hand to ear, wait for stillness. Use before the video and before every instruction.
hajimemasu	ha-jee- meh- MASS	begin	Taught form. Drill command is the short hajime! — starts every drill, never say “go”.
yamemasu	ya-meh- MASS	stop	Taught form. Drill command is the short yame! — say once, expect stillness.
tabemasu	ta-beh- MASS	eat	At the sushi table, before itadakimasu .
~ o kudasai	oh koo- da- SIGH	... please	Price of every ingredient in block 6.

Two forms, one word. Teach **hajimemasu** / **yamemasu** as the verbs — they match **kikimasu** and **tabemasu** so the **-masu** pattern is visible. On the floor, bark the short form: **HAJIME!** and **YAME!** That is what a real dojo uses, and hearing both is the point.

Teach *o kudasai* as a formula. Name the thing, then add *o kudasai*. Rehearse on something silly first — hold up a shoe, class says **kutsu o kudasai** — so the pattern is set before the candy is on the table.

BLOCK 5 • 15-18 MIN

Karate.

Demo first, then bow, stance, kick, pads.

- 1** **kikimasu, hand to ear, wait for stillness.** Then the kata, all the way through, in silence. No commentary.
- 2** **Bow in.** Line, feet together, hands at sides, bend from the waist, eyes down. **rei.** Repeat until the line is straight — usually three times.
- 3** **Fighting stance.** Feet shoulder width, one foot back, knees soft, hands up. Walk the line, fix two things per child, no more.
- 4** **Round kick, no pad.** Chamber the knee, turn the hip, snap. Ten slow reps counted aloud in Japanese.
- 5** **Round kick on the pads.** Two lines. **hajime** to start, **yame** to end. One kick per child per pass, count the class through to **jū.**
A: hold the second pad, take the shorter line, reset any child who drifts out of stance.
- 6** **Bow out of the block** before moving to food. The bow marks the edge and settles the room.

Karate renaming — say “the story goes...” The Chinese hand → empty hand renaming is not sourced yet. Tell it as a story today, not as fact.

Pads need both adults. One line each. Single-adult version of this block does not work with twelve children.

Candy sushi.

No ingredient handed over for pointing. Each one costs the sentence. Three sentences per child before anyone eats.

CHILD SAYS	SAY	RECEIVES	STANDS IN FOR
gohan o kudasai	GO-hahn	Rice crispy treat	the rice
sakana o kudasai	sa-KA-na	Swedish fish	the fish
nori o kudasai	NOH-ree	Fruit roll-up strip	the seaweed wrap

- 1

Flatten the rice crispy treat into a rectangle on the paper plate. Hands, not tools.
- 2

Lay the Swedish fish along one edge and roll the treat around it.
- 3

Wrap the fruit roll-up strip round the middle like a nori band. Sticks to itself.
- 4

Nobody eats until the whole class says itadakimasu together.

A: run the ingredient table and hold the line on the phrase — no sentence, no ingredient. That is the whole mechanism.

🚫 **Read every label before leaving the house.** Peanuts banned campus-wide, absolute. Store-bought rice crispy treats and gummy candy often carry a shared-equipment “may contain peanuts” line. Sesame is fine.

Substitutions Josie is bringing (confirmed 27 Aug):

- **Two children cannot have artificial dyes** per their parents — **dye-free candy** replaces the Swedish fish for those two.
- **Large marshmallows** stand in for the rice crispy treat for anyone avoiding **gluten**.

A: keep the substitute candy and the marshmallows on a separate corner of the table and hand them over on the same Japanese phrase. The sentence is the price either way — no child should notice they are on a different track.

Also still check gelatin: Swedish fish and marshmallows both contain it. A fruit-roll-up-only build works as the fallback.

Origami — dog and cat, one triangle.

Three folds. Same base for both, ears are the only difference. Uses **inu** and **neko** from block 2.

- 1** Square, colour side down. Fold corner to corner into a triangle.
- 2** Long edge at the top, point at the bottom.
- 3** Top two corners down = **inu**, floppy ears. Top two corners up and back = **neko**, pointed ears.
- 4** Bottom point up a little for the snout. Draw eyes and nose.

Chosen over the hat because it needs no symmetry and no even centre fold. A crooked dog still reads as a dog, so every child finishes holding something recognisable.

History of karate.

Durations checked 27 Aug. All family-safe flagged. Preview the chosen one before class.

BBC Ideas

Under 5 min, BBC.

Do not use Sam O’Nella Academy’s “Brief History of Sushi” — ranks well in search, crude adult humour.

PREP

Before Thursday.

- 1** **Read every food label** for peanut warnings. Shared-equipment lines are the trap.
- 2** **Fix *inu*** on the word card or board.
- 3** **Pre-cut fruit roll-ups** into nori-width strips at home.
- 4** **Confirm second adult** for the pad block.
- 5** **Preview the chosen video.**
- 6** **Pack:** kicking paddles, pads, paper plates, napkins, square paper for origami, word cards.
